

GUIDELINES TO CONTRIBUTORS

The NTI Bulletin (erstwhile 'NTI Newsletter') introduced in 1963, by the National Tuberculosis Institute, Bangalore is a media for exchange of information on tuberculosis control programme between research and program workers. This provides a forum for discussing the problems faced and the solved under programme conditions by program workers. It also disseminates information TB research generated at local, regional and national level. The scope of the Bulletin is to publish articles on Epidemiological, Sociological and operational aspects of TB prevention and Control and Operational aspects viz., treatment, case holding, case finding, defaulter retrieval and motivation as health education component under Information, Education & Communication. It also publishes program information on RNTCP and NTP. This is an unpriced publication and distributed free of cost as per the mailing list maintained in the NTI library.

FORMAT OF COMMUNICATIONS

The communications can be sent on any of the following formats viz., editorial, original articles, field research/reports, case reports, practical applications, clinical problems, Field experience, Success stories, readers' write/readers' forum, view point and also as correspondence.

SUBMISSION OF MANUSCRIPTS

It should be submitted (in MSWord doc format as e-mail attachment) online and hardcopy by post to the

The Editor,
NTI Bulletin,
National Tuberculosis Institute,
'Avalon', No.8, Bellary Road,
Bangalore - 560 003.

PREPARATION OF MANUSCRIPTS

Manuscripts should be presented in as concise a form as possible, typewritten in double space on one side of good paper of A4 size.

Title page should contain the title of the article and a full list of all authors - the first name being that of the primary author. The name of the departments, institutions and research centres should be given in full. Abbreviations are not to be used.

The next page should contain an abstract of not more than 150 words providing clear information on the central question or hypothesis of the article. A brief note of the major results or conclusions of the study will be appropriate.

The text page is usually divided into

INTRODUCTION

This must state briefly the current state of the art and indicate the main objective for undertaking the study. Material and methods should be precise and clear. Statistical methods are to be clearly expressed.

The result portion should contain the usual tables and findings of the study. Tables are to be kept to a minimum. Figures or drawings if any should be clear and originals should be sent.

The discussion portion is the area for arguing the points of the articles and the results need not be repeated. The deductions should be logical and relate to other relevant studies. A brief conclusion/summary paragraph is helpful. Due acknowledgement is to be made and proper authority for quoting references and communications are to be included.

REFERENCES

All references should be cited in full and numbered in the order in which they appear in the article. Examples:
