

## ANNEXURE IV

### BIBLIOGRAPHY OF NTI PAPERS

<b>1974</b>
-------------

150. Nair SS: Significance of patients with X-ray evidence of active tuberculosis not bacteriologically confirmed. **Indian J TB 1974, 21, 3–5.**
151. Gothi GD, Chakraborty AK & Banerjee GC: Interpretation of photofluorograms of active pulmonary tuberculosis patients found in epidemiological survey and their five year fate. **Indian J TB 1974, 21, 90–97.**
152. Gothi GD, Nair SS, Kul Bhushan, Baily GVI & Rupert Samuel GE: BCG vaccination induration size as an indicator of infection with mycobacterium tuberculosis. **Indian J TB 1974, 21, 145–51.**
153. Baily GVI, Rupert Samuel GE & Nagpaul DR: A concurrent comparison of an unsupervised self-administered daily regimen and a fully supervised twice weekly regimen of chemotherapy in a routine out-patient treatment programme. **Indian J TB 1974, 21, 152–167.**
154. Naganathan N, Padmanabha Rao K & Rajalakshmi R: Cost of establishing and operating a tuberculosis bacteriological laboratory. **Indian J TB 1974, 21, 181–90.**
155. Krishna Murthy MS, Rangaswamy KR, Shashidhara AN & Banerjee GC: Some aspects of changes in rural population and fate of TB cases after an interval of 12 years. **NTI NL 1974, 11, 1–7.**
156. Kakkar M: Chemoprophylaxis of tuberculosis. **NTI NL 1974, 11, 8–11.**
157. Chakraborty AK: Delivery of anti-tuberculosis chemotherapy to the community. **NTI NL 1974, 11, 12–16.**
158. Naganathan N: An inter-laboratory comparison. **NTI NL 1974, 11, 27–28.**
159. Nagpaul DR: A social comment. **NTI NL 1974, 11, 29–31.**
160. Naganathan N: Some guidelines for establishing a tuberculosis culture laboratory. **NTI NL 1974, 11, 32–34.**

161. Waaler HT, Gothi GD, Baily GVJ & Nair SS: Tuberculosis in rural south India: A study of possible trends and the potential impact of anti-tuberculosis programmes. **Bull Wld Hlth Org 1974, 51, 263–71.**
162. National Tuberculosis Institute, Bangalore: Tuberculosis in a rural population of south India: A five year epidemiological study. **Bull Wld Hlth Org 1974, 51, 473–88.**
163. Rupert Samuel GE & Nair SS: Weeding of case index and cross index cards in District Tuberculosis Programme. **NTI NL 1974, 11, 50–53.**
164. Nagpaul DR: Control programme of tuberculosis. **Proceedings of the combined National Conference on Tuberculosis & Chest Diseases, 29th & Conference of the Eastern Region of IUAT, 9th, New Delhi, India, 1974, 50–57.**
165. Chandrasekhar P & Gothi GD: Training of medical and paramedical tuberculosis workers. **Proceedings of the combined National Conference on Tuberculosis & Chest Diseases, 29th & Conference of the Eastern Region of IUAT, 9th, New Delhi, India, 1974, 185–90.**
166. Nagpaul DR, Naganathan N & Prakash M: Diagnostic photofluorography and sputum microscopy in tuberculosis case finding. **Proceedings of the combined National Conference on Tuberculosis & Chest Diseases, 29th & Conference of the Eastern Region of IUAT, 9th, New Delhi, India, 1974, 338–46.**
167. Naganathan N, Nagpaul DR & Nair SS: Case finding by sputum microscopy. **Proceedings of the combined National Conference on Tuberculosis & Chest Diseases, 29th & Conference of the Eastern Region of IUAT, 9th, New Delhi, India, 1974, 351–58.**
168. Baily GVJ & Gothi GD: The problem of drug resistance under conditions of drug chemotherapy. **Proceedings of the combined National Conference on Tuberculosis & Chest Diseases, 29th & Conference of the Eastern Region of IUAT, 9th, New Delhi, India, 1974, 367–71.**
