

## ANNEXURE IV

### BIBLIOGRAPHY OF NTI PAPERS

**1960**

1. Bordia NL, Anton Geser, Mclary J, Mundt I & Kul Bhushan: Tuberculin sensitivity in young children (0-4 years old) as an index of tuberculosis in the community. **Indian J TB 1960, 8, 25-43.**
2. Bordia NL: Drug prophylaxis in the control of tuberculosis in India. **Indian J TB 1960, 7, 83-87.**
3. Bordia NL: The training programme of the Institute. **Bull Dev Prev TB 1960, 7, 4-6.**
4. Mahler HT: The World Health Organisation and the ideas behind the Institute. **Bull Dev Prev TB 1960, 7, 7-12.**
5. Kul Bhushan: Assessment of BCG vaccination in India. **Indian J Med Res 1960, 48, 407-417.**

**1961**

6. Raj Narain, Kul Bhushan & Subramanian M: Allergy producing capacity of the Madras and Danish vaccines as seen among school children in Bangalore. **Indian J TB 1961, 9, 15-29.**
7. Banerji D: The medical sciences and the Indian society. **J Indian Med Assoc 1961, 37, 22-25.**
8. Bordia NL: Training of auxiliary personnel for the control of tuberculosis in India. **Bombay Hosp J 1961, 3, 122-123.**

**1962**

9. Andersen S & Banerji D: Report on a study of migration in four taluks of Bangalore district. **Population Review 1962, 6, 69-77.**
10. Bordia NL: Ideas on the District Tuberculosis Clinic. **Proceedings of All India Tuberculosis and Chest Diseases Workers' Conference, 18th, Bangalore, India 16-19 Jan 1962, 6-8.**
11. Raj Narain: Tuberculosis Control (An approach to villages). **Proceedings of All**

**India Tuberculosis & Chest Diseases Workers' Conference, 18th, Bangalore, India, 16-19 Jan 1962, 13-15.**

12. Andersen S & Piot M: The operations research approach. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 18th, Bangalore, India, 16-19 Jan 1962, 16-19.**
13. Raj Narain, Jambunathan MV & Subramanian M: Resurvey of fifteen villages from the Madanapalle zone of National Sample Survey on tuberculosis. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 18th, Bangalore, India, 16-19 Jan 1962, 3441.**
14. Raj Narain & Subramanian M: Limitations of single picture interpretation in mass radiography. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 18th, Bangalore, India, 16-19 Jan 1962, 64-85.**
15. Kul Bhushan: Allergy after BCG vaccination. **Proceedings of All India Tuberculosis and Chest Diseases Workers' Conference, 18th, Bangalore, India, 16-19 Jan 1962, 286-289.**
16. Raj Narain: Size and extent of tuberculosis problem in urban and rural India. **Indian J TB 1962, 9, 147-50.**
17. Baily GVI: Door to door BCG vaccination. **Bull Dev Prev TB 1962, 9, 12.**
18. Kul Bhushan: Trial on experimental batches of freeze dried BCG vaccine produced at Guindy laboratory. **Bull Dev Prev TB 1962, 9, 16-19.**
19. Banerji D: Medical practice in India and its sociological implications. **Antiseptic 1962, 59, 125-29.**
20. Andersen S & Benjamin PV: Five million tuberculous in India: BCG+INH, **T. Bulletin of IUAT 1962, 3, 6-13.**
21. Waaler HT, Geser A & Andersen S: The use of mathematical models in the study of epidemiology of tuberculosis. **Ame J Pub Hlth 1962, 52, 1002-1013.**
22. Piot M: Outline of a District Tuberculosis Programme. **Indian J TB 1962, 9, 151-156.**
23. Andersen S: Some aspects of the economics of tuberculosis in India. **Indian J TB 1962, 9, 176-180.**

## 1963

24. Raj Narain, Geser A, Jambunathan MV & Subramanian M: Tuberculosis prevalence survey in Tumkur district. **Indian J TB** 1963, 10, 85-116.
25. Andersen S: Operations research in public health. **Indian J Pub Hlth** 1963, 7, 141-151.
26. Raj Narain, Geser A, Jambunathan MV & Subramanian M: Some aspects of a tuberculosis prevalence survey in a south Indian district. **Bull WHO** 1963, 29, 641-64.
27. Banerji D & Andersen S: A sociological study of the awareness of symptoms among persons with pulmonary tuberculosis. **Bull WHO** 1963, 29, 665-683.
28. Andersen S & Banerji D: A sociological inquiry into an urban TB control programme in India. **Bull WHO** 1963, 29, 685-700.

## 1964

29. Raj Narain, Nair SS & Chandrasekhar P: A comparison of the relative value of single and double picture techniques in tuberculosis prevalence surveys. **Indian J TB** 1964, 3, 145-153.
30. Raj Narain: Epidemiology of tuberculosis in India. **Swasth Hind** 1964, 7, 60-63.
31. Banerji D: Facts and fads about tuberculosis. **Swasth Hind** 1964, 7, 70.
32. Gothi GD: District Tuberculosis Programme. **Swasth Hind** 1964, 7, 73-75.
33. Zacharia A: Care of tuberculosis patients. **Swasth Hind** 1964, 7, 83-84.
34. Nagpaul DR: Chemotherapy programmes and drug regimens related to the economic resources in developing countries. **Bull IUAT** 1964, 35, 242-246.
35. O'Rourke J: Tuberculosis work in India. **Patna J Med** 1964, 38, 609-613.
36. Nagpaul DR: Development of a National Tuberculosis Control Programme in India. **Patna J Med** 1964, 38, 643-47.
37. Banerji D: Health problems and health practices in modern India: A historical interpretation. **Indian Practitioner** 1964, 17, 137-143.

38. Kul Bhushan: My experience of Mass BCG Campaign. **Bull Dev Prev TB 1964, 9, 12-14.**
39. Banerji D: Some social aspects of the National Tuberculosis Programme. **Bull Dev Prev TB 1964, 9, 47-50.**
40. Naidu VB: Rationale of District Tuberculosis Programme. **Bull Dev Prev TB 1964, 9, 63-65.**
41. Banerji D: Facts and Fads. **T Bull of IUAT 1964, 10,17.**
42. Kul Bhushan: Some studies on the Madras freeze dried BCG vaccine. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 19th, New Delhi, India, 5-7 Apr. 1964, 112.**
43. Gothi GD, Kul Bhushan, Nair SS & Baily GVJ: BCG without tuberculin test. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 19th, New Delhi, India, 5-7 Apr. 1964, 138-162.**
44. O'Rourke J: Evaluating control programmes. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 19th, New Delhi, India, 5-7 Apr 1964, 195-208.**
45. Nagpaul DR: Role of nursing personnel in the National Tuberculosis Control Programme. **Nursing J of India 1964, 16, 109.**
46. Andersen S: India's tuberculosis problem. **NTI NL 1964, 1, 5-8.**
47. O'Rourke J: Significance of tuberculin test. **NTI NL 1964, 1, 32-35.**
48. Piot M: Tuberculosis, the developing countries and the WHO. **NTI NL 1964, 1, 43-52.**

## 1965

49. Gothi GD & Baily GVJ: Problems of treatment of TB patients in rural areas. **Indian J TB 1965, 12, 62-68.**
50. Raj Narain: Case finding (Epidemiological consideration). **Indian J TB 1965, 12, 95-100.**
51. Baily GVJ: Recent development in the application of BCG vaccination. **Bull Dev Prev TB 1965, 9, 24-27.**

52. Kul Bhushan: Technical aspects of BCG campaign. **Bull Dev Prev TB 1965, 9, 31-35.**
53. Banerji D: Tuberculosis: A problem of social planning in developing countries. **Med Care 1965, 3, 151-159.**
54. Anne Pe: Hope for millions - A National Tuberculosis Control Programme. **Nursing Time 1965, 61, 1494.**
55. Mercenier P & O'Rourke J: Tuberculosis Control in cities. **Maharashtra Medl J 1965, 569-73.**
56. Raj Narain, Nair SS, Chandrasekhar P & Ramanatha Rao G: Problems connected with the estimation of the incidence of tuberculosis infection. **Indian J TB 1965, 13, 5-23.**
57. Govindaswamy V & Savic D: Intermittent treatment with streptomycin and isoniazid in rural area. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 20th, Ahmedabad, India, 3-5 Feb 1965, 113-128.**
58. Banerji D: India's National Tuberculosis Programme in relation to the proposed social and economic development plans. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 20th, Ahmedabad, India, 3-5 Feb 1965, 210-216.**
59. Bailly GJVJ: Recent developments in the application of BCG vaccination. **NTI NL 1965, 2, 10-16.**
60. Menon VA: Planning for X-ray section. **NTI NL 1965, 2, 38-41.**

## 1966

61. Raj Narain, Nair SS, Ramanatha Rao G, Chandrasekhar P & Pyarelal: Enhancing of tuberculin allergy by previous tuberculin test(s). **Indian J TB 1966, 13, 43-56.**
62. Padmanabha Rao K, Nair SS, Cobbold N & Naganathan N: Some operational factors influencing the utility of culture examination in the diagnosis of pulmonary tuberculosis. **Indian J TB 1966, 13, 61-76.**
63. Nagpaul DR: National Tuberculosis Institute. **Swasth Hind 1966, 10, 158-62.**
64. Raj Narain, Nair SS, Ramanatha Rao G, & Chandrasekhar P: Distribution of infection and disease among households in a rural community. **Bull WHO 1966, 34, 639-54.**

65. Nagpaul DR: Conquest of tuberculosis. **Swayam Sahaya 1966, 1, 10.**
66. Padmanabha Rao K, Nair SS, Naganathan N & Ramanatha Rao G: An invitro study on sensitivity of tubercle bacilli to thiacetozone (TB1). **Indian J TB 1966, 13, 147-57.**
67. Raj Narain: Comments on epidemiological recommendations. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 21st, Calcutta, India, 11-14 Feb 1966, 33-37.**
68. Nagpaul DR: BCG vaccination. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 21st, Calcutta, India, 11-14 Feb. 1966, 42-44.**
69. Raj Narain, Ramanatha Rao G, Chandrasekhar P & Pyarelal: Fate of cases diagnosed in a survey. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 21st, Calcutta, India, 11-14 Feb 1966, 72-77.**
70. Anna Mohanraj: Midwives and auxiliary nurse midwives in National Tuberculosis Programme. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 21st, Calcutta, India, 11-14 Feb 1966, 335-338.**
71. Padmanabha Rao K, Naganathan N & Nair SS: A cold staining method for tubercle bacilli using chloroform. **Indian J TB 1966, 14, 3-9.**
72. Gothi GD, O'Rourke J & Baily GVJ: Some observations on the drug combination of INH + Thiacetozone under the conditions of District Tuberculosis Programme. **Indian J TB 1966, 14, 41-48.**
73. Gothi GD, O'Rourke J & Baily GVJ: Some observations on the drug combination of INH + Thiacetazone under the conditions of District Tuberculosis Programme. **NTI NL 1966, 3, 1-17.**
74. Nagpaul DR: Case finding methods most adequate under the medical, economic and social conditions of different countries. **NTI NL 1966, 3, 29-36.**
75. Menon VA: Choosing the X-ray equipment - II. **NTI NL 1966, 3, 37-40.**

## 1967

76. Nagpaul DR: Role of the National Tuberculosis Institute (NTI) in fight against tuberculosis. **Souvenir of Mysore State Tuberculosis and Chest Diseases Workers Conference, 2nd, Mangalore, India, 14-15 Jan 1967, 107-111.**
77. Nagpaul DR: District Tuberculosis Programme in concept and outline. **Indian J TB**

1967, 14, 186-198.

78. Raj Narain, Chandrasekhar P, Pyarelal & Satyanarayanachar RA: Prevalence, fate, source and infectivity of resistant strains of mycobacterium tuberculosis: **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 22nd, Hyderabad, India, 3-6 Feb 1967, 37-51.**
79. Padmanabha Rao K: A comparative study of prevalence of drug resistance to major anti-tuberculosis drugs. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 22nd, Hyderabad, India, 3-6 Feb 1967, 52-62.**
80. Nagpaul DR & Viswanath MK: Economics of Health. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 22nd, Hyderabad, India, 3-6 Feb 1967, 279-300.**
81. Savic D: Relationship between drug collection and intake among tuberculosis patients in ambulatory chemotherapy. **Proceedings of Tuberculosis and Chest Diseases Workers Conference, 22nd, Hyderabad, India, 3-6 Feb 1967, 330-339.**
82. Baily GJVJ, Savic D, Gothi GD, Naidu VB & Nair SS: Potential yield of pulmonary tuberculosis cases by direct microscopy of sputum in a district of south India. **Bull WHO 1967, 37, 875-92.**
83. Viswanath MK: Social science and medicine. **NTI NL 1967, 4, 1-9.**
84. Nagpaul DR: Science, technology and TB control. **NTI NL 1967, 4, 10-13.**
85. Baily GJVJ: Operational research in health services with particular reference to the tuberculosis programme in India. **NTI NL 1967, 4, 29-35.**
86. Nair SS: Note on operational research in hospital services with summaries of two illustrative studies. **NTI NL 1967, 4, 36-40.**

## 1968

87. Kul Bhushan, Baily GJVJ, & Naidu VB: Simultaneous smallpox and BCG vaccination. **Indian J TB 1968, 15, 52-56.**
88. Baily GJVJ: Direct BCG vaccination - Simultaneous BCG & smallpox vaccination. **Bull IUAT 1968, 41, 53-59.**
89. Nagpaul DR, Savic D, Padmanabha Rao K & Baily GJVJ: Case finding by microscopy. **Bull IUAT 1968, 41, 148-158.**

90. Gothi GD, O'Rourke J & Baily GVJ: Drug toxicities observed amongst the patients treated with INH+Thioacetazone under conditions of District TB Programme. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, Calcutta, India, 1968, 368-373.**
91. Arora BC: BCG Vaccination and mass campaign programme. **Clinician 1968, 32, 19.**
92. Raj Narain, Chandrasekhar P, Satyanarayanachar RA & Pyarelal: Resistant and sensitive strains of mycobacterium tuberculosis found in repeated surveys among a south Indian rural population. **Bull Wld Hlth Org 1968, 39, 681-99.**
93. Raj Narain, Nair SS, Naganna K, Chandrasekhar P, Ramanatha Rao G & Pyarelal: Problem in defining a 'case' of pulmonary tuberculosis in prevalence surveys. **Bull Wld Hlth Org 1968, 39, 701-29.**
94. Nagpaul DR: Computer age in tuberculosis control. **NTI NL 1968, 5, 11-14.**
95. Nagpaul DR: The District Tuberculosis Control Programme (DTP). **NTI NL 1968, 5, 33-37.**
96. Gothi GD: Problem of tuberculosis in India. **NTI NL 1968, 6, 71-78.**
97. Radha Narayan: First impressions of a newcomer at the National Tuberculosis Institute, Bangalore. **NTI NL 1968, 6, 94-98.**

## 1969

98. Nair SS: Planning of research studies. **Indian J TB 1969, 16, 37-41.**
99. Menon VA & Nair SS: Problems of maintenance of hospital equipment. **J Inst of Engineers 1969, 49, 73-77.**
100. Nagpaul DR: Role of the National Tuberculosis Institute (NTI) in National Tuberculosis Control Programme(NTP). **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 24th, Trivandrum, India, 3-5 Jan 1969, 45-49.**
101. Simeonov LA: Role of World Health Organisation in National Tuberculosis Programme. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 24th, Trivandrum, India, 3-5 Jan 1969, 50-54.**
102. Arora BC: Functions & responsibilities of regional health organisations and the role of regional tuberculosis organisations under the National Tuberculosis Programme. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 24th,**

**Trivandrum, India, 3-5 Jan 1969, 54-67.**

103. Padmanabha Rao K: Inter and intra reader variations in direct microscopy and their influence on sensitivity and specificity. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 24th, Trivandrum, India, 3-5 Jan 1969, 99-110.**
104. Simeonov LA: Methods of health and medical research. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 24th, Trivandrum, India, 3-5 Jan 1969, 315-19.**
105. Nagpaul DR: Some implications of the observed socio-epidemiological characteristics of out-patients attending a city tuberculosis control centre. **Proceedings of Tuberculosis & Chest Diseases Workers Conference, 24th, Trivandrum, India, 3-5 Jan 1969, 336-42.**
106. Arora BC: Evaluation of District Tuberculosis Programme functions through conventional reports. **NTI NL 1969, 6, 8-19.**
107. Simeonov LA: Cost of National Tuberculosis Programme. **NTI NL 1969, 7, 31-35.**
108. Baily GJV: BCG vaccination – Its present status. **NTI NL 1969, 7, 36-39.**
109. Nagpaul, DR: Modern trends in the treatment of tuberculosis. **NTI NL 1969, 7, 61-67.**
110. Radha Narayan: Tuberculosis, a problem of human suffering. **NTI NL 1969, 7, 68-71.**

## **1970**

111. Kul Bhushan, Nair SS & Ganapathy KT: Assessment of post vaccination allergy among those vaccinated without pre-vaccination tuberculin test. **Indian J TB 1970, 17, 18-31.**
112. Chandrasekhar P, Nair SS, Padmanabha Rao K, Ramanatha Rao G & Pyarelal: Examination of multiple sputum specimens in a tuberculosis survey. **Tubercle 1970, 51, 255.**
113. Padmanabha Rao K & Nagpaul DR: Bacteriological diagnosis of pulmonary tuberculosis – sputum microscopy. **Bull IUAT 1970, 44, 67-77.**
114. Nagpaul DR, Viswanath MK & Dwarakanath G: A Socio-epidemiological study of out-patients attending a city tuberculosis clinic in India to judge the place of specialised

centres in a tuberculosis control programme. **Bull Wld Hlth Org 1970, 43, 17–34.**

115. Gothi GD, Savic D, Baily GVJ & Rupert Samuel GE: Cases of pulmonary tuberculosis among the out-patients attending General Health Institutions in an Indian city. **Bull Wld Hlth Org 1970, 43, 35–40.**
116. Gothi GD: Epidemiology in control of pulmonary tuberculosis. **NTI NL 1970, 8, 7–12.**
117. National Tuberculosis Institute, Bangalore: Outline of a tuberculosis programme for large cities based on the principles of National Tuberculosis Programme. **NTI NL 1970, 8, 13–18.**
118. Simeonov LA: Training requirements of medical and para-medical staff in the District Tuberculosis Programme. **NTI NL 1970, 8, 35–38.**
119. Baily GVJ: Tuberculosis – amenable to organised community effort. **NTI NL 1970, 8, 39–41.**
120. Arora BC: The basis for fixing forecasts for DTP. **NTI NL 1970, 8, 61–63.**
121. Radha Narayan: Communication model of a National Tuberculosis Institute. **NTI NL 1970, 8, 64–65.**
122. Nagpaul DR: X-rays: their use in medical diagnosis. **NTI NL 1970, 8, 83–87.**
123. Menon VA: Some technical problems connected with effective utilization of X-ray equipments in National Tuberculosis Programme. **NTI NL 1970, 8, 88–93.**

## **1971**

124. Gothi GD, Nair SS & Pyarelal: Some epidemiological aspects of tuberculous disease and infection in pediatric age group in a rural community. **Indian Pediatrics 1971, 8, 186–194.**
125. Nair SS, Ramanatha Rao G & Chandrasekhar P: Distribution of tuberculous infection & disease in clusters of rural households. **Indian J TB 1971, 18, 3–9.**
126. Padmanabha Rao K, Nair SS, Naganathan N & Rajalakshmi R: Assessment of diagnosis of pulmonary tuberculosis by sputum microscopy in a District Tuberculosis Programme. **Indian J TB 1971, 18, 10–21.**

127. Arora BC: The new role of District Tuberculosis Associations in the National Tuberculosis Programme. **NTI NL 1971, 8, 1–4.**
128. Nagpaul DR: The International Education Year. **NTI NL 1971, 8, 5–7.**
129. Nagpaul DR & Sudha S Murthy: The NTI News Letter-Opinion poll. **NTI NL 1971, 8, 26–30.**
130. Nair SS: Some introspections on integration of NTP with General Health Services. **NTI NL 1971, 8, 89–93.**
131. Naganathan N: Random thoughts on NTP & NTI. **NTI NL 1971, 8, 94–97**
132. Gothi GD, Savic D, Baily GVJ, Padmanabha Rao K, Nair SS & Rupert Samuel GE: Collection and consumption of self-administered anti-tuberculosis drugs under programme conditions. **Indian J TB 1971, 18, 107–113.**
133. Nair SS: Assessment and monitoring of National Tuberculosis Programme (NTP). **Indian J TB 1971, 18, 131–134.**

## 1972

134. Nagpaul DR: Tuberculosis control teams. **Indian J TB 1972, 19, 3–11.**
135. Radha Narayan: Team training in a job-oriented course. **NTI NL 1972, 9, 1–3.**
136. Suresh T: Operations Research (OR) in Public Health (PH). **NTI NL 1972, 9, 4–6.**
137. Radha Narayan & Pramila Kumari S: A model for ‘motivation’ of tuberculosis patients under the National Tuberculosis Programme. **NTI NL 1972, 9, 20–22.**
138. Nagpaul DR: Treatment results in DTP. **NTI NL 1972, 9, 24–28.**
139. Nagpaul DR: Science and the man today. **NTI NL 1972, 9, 45–48.**
140. Kul Bhushan, Mukherjee MN, Chattopadhyaya SP & Ganapathy KT: A comparison between longitudinal and transverse diameters of tuberculin test indurations. **Indian J Med Res 1972, 60, 1724–30.**

## 1973

141. Kul Bhushan, Nair SS, Ganapathy KT & Vijay Singh: A comparison of the Copenhagen and Madras liquid BCG vaccines. **Indian J TB 1973, 20, 4–9.**

142. Radha Narayan & Prabhakar S: Tuberculosis – An old disease in an ancient land (past and present approach). **NTI NL 1973, 10, 1–4.**
143. Gothi GD: Current trend in research at National Tuberculosis Institute, Bangalore. **NTI NL 1973, 10, 5–8.**
144. Radha Narayan: Community orientation of the National Tuberculosis Programme. **NTI NL 1973, 10, 31–33.**
145. Naganathan N: Guidelines for despatch of specimens for laboratory investigations. **NTI NL 1973, 10, 35–38.**
146. Baily GVJ, Kul Bhushan, Rupert Samuel GE & Keshava Murthy BK: Integration of BCG vaccination in the General Health Services in rural areas. **Indian J TB 1973, 20, 155–160.**
147. Nair SS & Gothi GD: Place of contact examination in a tuberculosis programme. **Indian J TB 1973, 20, 164–72.**
148. Krishna Murthy VV: Estimation of operational cost of a home visit from an urban centre. **NTI NL 1973, 10, 49–56.**
149. Chakraborty AK: Some problems of epidemiological assessment of a DTP. **NTI NL 1973, 10, 57–61.**

## 1974

150. Nair SS: Significance of patients with X-ray evidence of active tuberculosis not bacteriologically confirmed. **Indian J TB 1974, 21, 3–5.**
151. Gothi GD, Chakraborty AK & Banerjee GC: Interpretation of photofluorograms of active pulmonary tuberculosis patients found in epidemiological survey and their five year fate. **Indian J TB 1974, 21, 90–97.**
152. Gothi GD, Nair SS, Kul Bhushan, Baily GVJ & Rupert Samuel GE: BCG vaccination induration size as an indicator of infection with mycobacterium tuberculosis. **Indian J TB 1974, 21, 145–51.**
153. Baily GVJ, Rupert Samuel GE & Nagpaul DR: A concurrent comparison of an unsupervised self-administered daily regimen and a fully supervised twice weekly regimen of chemotherapy in a routine out-patient treatment programme. **Indian J TB 1974, 21, 152–167.**
154. Naganathan N, Padmanabha Rao K & Rajalakshmi R: Cost of establishing and operating

a tuberculosis bacteriological laboratory. **Indian J TB 1974, 21, 181–90.**

155. Krishna Murthy MS, Rangaswamy KR, Shashidhara AN & Banerjee GC: Some aspects of changes in rural population and fate of TB cases after an interval of 12 years. **NTI NL 1974, 11, 1–7.**
156. Kakkar M: Chemoprophylaxis of tuberculosis. **NTI NL 1974, 11, 8–11.**
157. Chakraborty AK: Delivery of anti-tuberculosis chemotherapy to the community. **NTI NL 1974, 11, 12–16.**
158. Naganathan N: An inter-laboratory comparison. **NTI NL 1974, 11, 27–28.**
159. Nagpaul DR: A social comment. **NTI NL 1974, 11, 29–31.**
160. Naganathan N: Some guidelines for establishing a tuberculosis culture laboratory. **NTI NL 1974, 11, 32–34.**
161. Waaler HT, Gothi GD, Baily GVJ & Nair SS: Tuberculosis in rural south India: A study of possible trends and the potential impact of anti-tuberculosis programmes. **Bull Wld Hlth Org 1974, 51, 263–71.**
162. National Tuberculosis Institute, Bangalore: Tuberculosis in a rural population of south India: A five year epidemiological study. **Bull Wld Hlth Org 1974, 51, 473–88.**
163. Rupert Samuel GE & Nair SS: Weeding of case index and cross index cards in District Tuberculosis Programme. **NTI NL 1974, 11, 50–53.**
