

## **HEALTH INTERNETWORK INDIA PILOT PROJECT - TUBERCULOSIS**

### **Progress Report : July - December 2003**

#### **Digitization of Scientific Papers & NTI Publications**

During the period under report, 200 scientific papers published in different National & International Journals were digitized after obtaining the copyright permission from publishers. Besides the following NTI publications were also digitized.

- ☛ Annual Reports from 1960 - 2001
- ☛ All Research Protocols
- ☛ Programme Manuals
- ☛ Hand Books on
  - TB & HIV
  - Childhood TB
  - Health Education
  - Tuberculin skin test
- ☛ WHO Assignment Reports
- ☛ Review Reports on TB Control

#### **Digital Library Software**

Digital library software was developed and the database of digitized documents has been made available on this software, which is hosted on Intranet & Internet. The digital library was launched on 28<sup>th</sup> October 2003. On this occasion, CDs containing segregated, published scientific papers, modules and manuals for programme workers at District & PHC levels were released. It was also decided to distribute the CDs released to all the HIN Project sites at Orissa & Karnataka. As such orders were placed for additional supply of 150 CD each for programme workers. A technical document on digitization & User manual on digital library was also brought out.

Development of PDA based Mobile data collection system (Management Information System) for STS/STLS is in the final stage with developer M/s Analytica, The BEL Company, Bangalore has supplied the devices. The system has been proposed for implementation during first and second quarter of 2004 in the entire Bangalore.
